

We enjoy finding solutions for our customers.

Philosophy

Continuously invest in the latest advancements in CNC sheet metal and tubular fabrication equipment technologies. This results in unmatched quality, consistency, productivity, and competitive contract manufacturing services. Our seasoned staff delights in transforming complex ideas and designs into simple, common-sense approaches to manufacturing and problem solving.

Growth and Reputation

- Bryan Hawkins named small business person of the year by U.S. Small Business Administration
- Listed 3 times on Mississippi Business Journal's top 40 fastest growing privately held companies
- In 2016 Innovate Mississippi named Hawkeye Industries an "Innovator to Watch"

What We DO

State-of-the-art contract manufacturing of sheet metal and tubular components and assemblies.

Never stop getting better at what you do. Continuously strive for perfection.

**Bryan Hawkins
President, CEO and Founder**

Our Technologies

TRUMPF TruLaser Tube 5000 Fiber
TRUMPF TruPunch 5000 Punching Cells
CNC Flat Bed Laser Cells
CNC Hydraulic Press Brakes
CAD/CAM/ERP
Assembly, Joining, Welding, and Fabricating

How We Work

We collaborate with our clients, both large and small, to provide successful solutions.

Our entire business model relies on maintaining financial strength to continuously invest and reinvest in the latest offerings of manufacturing technologies in order to provide our customers with competitive state-of-the-art services and quality.

As a privately-owned company, we have the ability and agility to respond rapidly to changes in technology to provide for the needs of our customers.

All Technologies

■ Trumpf TruPunch 5000 Punching Cells

■ Trumpf TruLaser Tube 5000 Fiber

■ CNC Flat Bed Laser Cells

- Trumpf TruLaser 5030 5KW Fiber
- Trumpf TruLaser 5030 6KW Fiber
- Trumpf TruLaser 3040 8KW Fiber

■ CNC Hydraulic Press Brakes

- Trumpf TruBend 7036 Press Brake
- Trumpf TruBend 5085 Press Brake (2)
- Trumpf TruBend 5230 Press Brake
- Trumpf V50 Press Brake
- Trumpf V85 Press Brake
- Trumpf V230 Press Brake

■ CAD/CAM/ERP

- CAD – Solid Works
- CAM – TruTops Boost
- ERP – Global Shop Solutions

■ Other Services

- Auto-Sert Automatic Hardware Insertion
- PEMSERTER Manual Feed Hardware Insertion
- Press Type Spot Welder (75 KVA)
- Scotchman Iron Worker
- Rocker Arm Welder (50 KVA)
- MIG Welding
- TIG Welding
- Titan Rolls 8344
- Weber TT1P6 Deburr/Finishing
- Giant Finishing Burnishing
